

Modern Slavery Act Transparency Statement

Our Business

Blueprint Gaming Limited (Blueprint) is a leading UK based game studio that creates slot games for the global online and mobile markets.

Blueprint operates in a highly regulated industry and therefore puts legal and regulatory compliance at the centre of its business operations and adopts a zero-tolerance approach to any form of modern slavery or human trafficking.

Our Supplier Due Diligence

Blueprint's business is highly technical and consequently its supply chain is also highly skilled and technical in nature.

Blueprint is committed to preventing modern slavery and human trafficking and has always strived to work with industry leading suppliers, partners and third parties. We ensure that staff engaged in the on-boarding of new suppliers and partners carry out industry appropriate checks to ensure that modern slavery and human trafficking does not affect any such supplier or partner. Where appropriate, we include contractual obligations in our agreements with third parties relating to compliance with all applicable laws, including the Modern Slavery Act.

Our Risk Assessment

Given the technical nature of the Blueprint business, highly skilled employees and a supply chain built upon long term strategic partnerships, we consider the risk of slavery and human trafficking within our supply chain to be very low.

Blueprint is very proud of the environment we create and provide to our employees and will continue to adopt a zero-tolerance approach to any form of modern slavery or human trafficking.

Our Training

All Blueprint employees are subject to a full and comprehensive induction process, ongoing training and have access to a range of guidance and policies.

Our employees are also made aware, via our Company Handbook, of the standards of behaviour that are expected of them. Through these processes, Blueprint strives to ensure the highest standards of employee conduct and behaviour when managing our relationships with our third party suppliers.
